CITY OF VICTORIA-WATER

After the fleecing to which the people of Canada have been subjected by the representatives of the Imperial Government, under the operations of the Washington Treaty, one would naturally have supposed that as Canadian interests had been so generously bartered awaysacrificed to the Moloch of American bravado-at least a show of sympathy would have been manifested in circles of Imperial authority for the losses Cana-Imperial authority for the losses Canadians have had to sustain, and the humiliations they have been called to endure, n order that a right understanding should be come to between England and the United States and all the matters in diapute between them be finally and source that a right understanding should be come to between England and the United States and all the matters in diapute between them be finally and dispute between them be finally and satisfactorily adjusted. That Canada had a deep interest in the amicable settlement of these disputes, is undeniable; for had an appeal been made to the sword justead of to peaceful arbitration, Canada would have been the arena upon which all these questions would have been fought out, and the consequences of such a contest would have been absolutely ruinous to the best interests of the Dominion. There, however, appears to be a feeling akin to enmity on the part of certain British statesmen toward Canada. which in view of the well-known patriotism of the Canadian people, and the love they have ever cherished for the Mother Country, appears utterly inexplicable.

This fact will appear from the following extract from a London letter published in the Montreal Gazette of a late date. It 5 Commercial Row, Wharf Street shows bow important it is that the people of Canada should have some one to on the floor of the House of Commons, as have other dependencies of the Crown. The following is the extract to which we refer:
"You know that at the house of Commons, as have other dependencies of the Crown. The following is the extract to which we refer: "You know that at the banquet given by the Lord Mayor of London, on the 9th of November, the ministers are generally present, and some notable deliverances upon current topics are usually looked for. Last Saturday, however, Mr. Gladstone was absent, and the speech-making was done by Lord Granville and Mr. Lowe, the Chancellor of the Exchequer. Both Ministers spoke of the

of British diplomacy, while Mr. Lowe, in his old tone, said we had to pay, and the less said the better. Neither Mr Lowe ner Lord Granville had a word of praise for, or sympathy with Canada for her for, or sympathy with No one, in fact, ou the beach, uear Laing's Ship Yard, seemed to think that it was necessary to Dalles Road, together with Sails, Andiscussed, for the purpose of damaging the Government. As usual, Canadian rests will be without a spokesman. What a pity it is that the Domision has not, in Parliament, men as eminent as Mr. Lowe or Mr. Childers. No one dares 13 to attack Australia, because Mr. Lowe or AUCTIONEER & COMMISSION Mr. Childers, could snawer. The prestige these men have given to Australia is enormous. The fact that they have Consignments of Fruit, received by every come over to be still more eminent in England, has a wonderous effect. Can-2 not you spare a Lowe or a Childers for meter such work as this? One thing that will be very vigorously attacked in the next session, will be the guarantee of twoand-a-balf millions. The Times, at present Canada's worst enemy, recently called the Canadian Pacific Railway "a Canadian dream," and the Northern Pacific agents on this side are circulating the libel in hundreds of thousands of

are to be made of that by all the enemies the House of Commons. The squires Jewelery, Damaged Goods, including hate that, because it takes away their Sweet Potatoes, Bottled Ale, odds and labourers; the manufacturers, because ends, &c, people, because they look upon a surplus population as a sort of providence in favour of their class; the military people, because they cannot get recruits, and so on. It has always been found impossible to get a parliamentary grant to encourage emigration. No doubt the instructive debates on these occasions have been read in Canada. Matters will be different, however, if the working classes ever begin to feel their power. And now they are talking of giving agricultural labourers the vote. The moral of all this is, that if the Dominion does not wish to find itself misrepresented more than ever, some arrangements should be made for the coming parliamentary campaign. Some friend of Canada—not a hot headed fanatic, like Mr. Johnson. who wants to perpetuate, in Canada, the religious discords of Ireland—but some san of influence and weight should be put in possession of the real facts of the case. A few ringing speeches, telling the truth about the Dominion, would have immense influence for good. There many men who will not go to the United States and think Australia too ar off, for whom Canada would be just the place. But, at present, how is this to be brought home to them? You have the Times printing column upon column of extracts from letters of men who nave gone out to Australia. You have the Toronto Globe hard at work assisting the anamies of Canada. mies of Canada.

It was all very well to dissemble your love, But why did you kick me down stairs? unhappy Canada may well say to the Globe. Lastly, you have against you any number of Yankee railroad agents, with great land grants, circulating every littel they can lay hold of to your disadvantage. The Northern Pacific people are actually publishing a weekly paper, "on their own hook," in which circulation is also to such statements. tion is given to such statements as I

Many of these agencies have their head-quarters in Liverpool; and, I shall at-tempt to give, in my next, some idea of their method of doing business, and they do a deal of business, I can assure you."

THE Toronto Leader of the 13th has the ollowing of interest to us; -The question of dual representation in the Province of Quebec, about which such an outery was made by the organ of the Ontario Government, has received its quietus for the present in con-sequence of the action of the Upper Chamber in that Province. It remains to be seen what will be the result of this decision. The Upper House is evidently determined that there shall be no restriction upon the liberty of the subject in matters relating to representation. In Untario the want of an Upper House is becoming more and more apparent every day, and we would not be surprised if measures are not taken to secure this much needed amendment to the constitution of this Province It must be evident to every one, that there is no real safety under the present one

chamber system of Ontario. OTTAWA, Out., Nov. 30, 1872.

Though Lord Dufferin be Governor Generof Canada, and such as the representative of the Queen of England, his influence on polities is comparatively sil. The man of real power in the Dominion is the Premier, Sir John A. Macdonald. It is the Governor General's prerogative to sign all bills that pass through Parliament, and there, it may be said his functions practically begin and terminate. This government is to all intents and purposes a constitutional meanarchy leaving out a house of peers, and the privilege of conferring patents of the corps in a highly satisfactory condition. Mr. Neufelder is elected Treasurer, in the place of Mr. Todd.

MINING WE WE.

From the Sentinel of the 14th we take the

Juan decision. If persons or peoples consent to leave a vexed question to arbitration they are dishonest if they complain of the verdict. England and America went into the matter of arbitration with their eyes open. We might wish the decision was different, but who will accuse the arbitrator of having arrived at anything but a disinterested conclu-sion? As for me, I consider the surrender of the island to America as of no material con

sequence to Canada. As for time to time between the two nations must be held at more or less regular intervals, and if the Penisa Raid damages received no at-tention from us at this time, they may on

We cost her nothing; but on the contrary, through means of free trade between the countries, we give her a wide field for the sale of her export products. As for what the Times said I feel sure that at the opening of Parliament it will at once come up for discussion. You will then see bow unanimon the representatives of the people, liberals and conservatives alike, will repudiate the ren-timents of the Times. The Premier spoke in rapturer about the prospects of his vailroad, and of the wild, unknown country through which it is intended to pass. I have given you enough of his conversation to show that he takes a genuine pride in the Dominion, and in being the temporary raiser of her destinate. To Professor Holloway

for sending in such Tenders has been and is hereby exceeded until noon of the 21st De-Sir, For many years I suffered periodically headache, and giddiness in head, to such a degree that at times I head, to such a degree that at times I head scarely been able to walk; after obtains Lands and Works Department, Victoria, 19th September, 1872. se23 the best medical advice without effect, I tried your Pills and in less than a week' I was completely cured. His Excellency the LIEUTENANT-GOVERNOR has been pleased to place the tollowing gentlemen on the Commission of the
Province of British Columbia: truth of the above statement.

COMPLAINTS OF WOMEN AND CRILDREN. The very mild and painless action of hese invaluable P.fls, recommends them o every household as a remedy for the early departures from health. Aug mothe er, nurse, or young person guided by the rection which accompany each box of Holleway's Prils, has at once available means for checking disease, qualifying the blood, and expelling from the system all gross humors. They are, indeed, at all ages, the tried females friend:

Loss of appetite and flatulency are usually the forerunners of stomachic disease. There famous Pills exercise the most salutary power in all affections of the diver, and irregularities of the atomach and bowels; they restore a healthy function to every internal organ, overcome all obstructions, and cast out all impurities

TION OF THE KIDNEYS & OTHER IN-TERNAL ORGANS

The immediate loss of auscular strength and nervous energy is more particularly remarkable in renal than in most other diseases. Their deficient action for one day suffices to produce fever, hence the necessity for prompt and efficient treatnent. Holloway's Pills have the great merit of restoring any suspended or di-minished secretion, and of relieving any affammation or congestion in the spleen, kidneys, or other subsidiary organs.

The tight, sufficating, anxious feeling caused by derangement of the beart, makes the sufferer look on present death as imminent. Holloway's Pills process efficient and ready remedy when the dis-sturbed circulation depends on indigestion flatulency, or deb lituted nervous vigor. Persons suffering from dis prbance of the heart should take about six of these Pille two or three times a week, according to ercomstances, to arrest the too active action of the heart.

WEAKNESS, LANGOUR AND DEBLIEY. These famous Pills will immediately remove all symptoms of debility, langour and weakness as they set upon the main or ngs of lite, and thus save thousands rom premature grave.

Holloway's Pills are the best remedy known in the world for the following dreeases ?

Ague the andord bed Inflammation Bilions Complaints Liver Complaints lotches on the Skin Lumbago lowel Complaints Rheumatism Bowels of the Scrofula, or King's onsumption

Evil Sore Throatson Stone and Gravel Secondary Symptoms Erysipelas Female Irregularities Tomours Fevers of all kinds Ulcers

Venereal Affections Worms of all kinds Weakness, from whatever cause ke., &c. Sold at the Establishment of Paoresson Holloway, 244 Strand, (near Temple Ray), London; also by all respectable Druggists and Dealers in Medicines throughout the * There is considerable saving by taking
